

BACKGROUND PAPER

Disarmament and International Security Committee

DISEC · Room 110

TOPIC 1

Preventing an arms race in outer space

TOPIC 2

Regulating the international trade in small arms and light weapons

As the First Committee of the General Assembly, DISEC addresses disarmament and the threats to global security that no state can meet alone. Its resolutions are not binding, which makes consensus-building the whole exercise: delegates must find language broad enough to attract signatures and precise enough to mean something.

Full background paper coming soon.

The Secretariat will publish the complete guide — including the history of the question, bloc positions and questions a resolution must answer — before the conference. Delegates should begin their own research in the meantime.
