

BACKGROUND PAPER

Economic and Social Council

ECOSOC · Library Seminar Room

TOPIC 1

Sovereign debt distress and the financing of the Sustainable Development Goals

TOPIC 2

Closing the digital divide in landlocked developing countries

ECOSOC coordinates the economic, social and environmental work of the United Nations system. Debate here turns on numbers as much as principle — debt service ratios, concessional finance, infrastructure costs — and delegates are expected to arrive knowing what their country can actually afford to promise.

Full background paper coming soon.

The Secretariat will publish the complete guide — including the history of the question, bloc positions and questions a resolution must answer — before the conference. Delegates should begin their own research in the meantime.
