

BACKGROUND PAPER

United Nations Environment Programme

UNEP · Room 301

TOPIC 1

Transboundary water management in Central Asia

TOPIC 2

Establishing a binding international framework on plastic pollution

UNEP sets the global environmental agenda and brokers the agreements that hold states to it. Our first topic sits on this conference's doorstep: the Amu Darya and Syr Darya basins support tens of millions of people across five states whose needs for water, energy and agriculture do not align. Delegates should come prepared to trade.

Full background paper coming soon.

The Secretariat will publish the complete guide — including the history of the question, bloc positions and questions a resolution must answer — before the conference. Delegates should begin their own research in the meantime.
